

## Unknown Account ID Jobs

The behavior of the machine when it receives a job from unknown account ID (i.e. unsend ID) can be specified. Refer to *Unknown login user name Job on page 11-9* for details.

## Checking and Printing Counter

The screenshot shows a 'Counter' window with two tables. The first table, 'Printed Pages', shows counts for Copy, Printer, FAX, and Total. The second table, 'Scanned Pages', shows counts for Copy, FAX, Others, and Total. At the bottom, there are buttons for 'Print Status Page', 'Printed Pages by Paper Size', and 'Close'.

Printed Pages				
	Copy	Printer	FAX	Total
Black&White:	300	600	100	1000

Scanned Pages				
	Copy	FAX	Others	Total
Originals:	300	100	1000	1400

Press the **Counter** key to check the number of sheets printed and scanned.

You can check the number of pages printed in each paper size by pressing [Printed Pages by Paper Size].

## Data Security Kit Operations

Installing the optional Data Security Kit adds [Data Security] on the System Menu.

Refer to *the Data Security Kit (E) OPERATION GUIDE on the bundled CD-ROM* for descriptions of the [Data Security] options and the procedures for using them.
